1 Company Introduction

Jia County Yihong Abrasives Co., Ltd is specializing in developing and producing abrasives products: fiberglass backing pads, flap discs, flap wheels, abrasive belt, cutting and grinding wheels, and other related abrasive products.

As early as in 2000, the company started the producing line of flap disc with name “Jia County Shuguang Specific Grinding Wheel Factory”, in line with the aim of quality first, laid a solid foundation for the enterprise expanding.

Through years of developing, in 2009, “Jia County Yihong Abrasives Co., Ltd” instead of the former company and promote the company to international market, its products are exported to Russia, Italy, Germany, Brazil, Turkey, India and other countries. Based on domestic and international market development, it has successfully built the whole production line for fiberglass backing pads, the auto-machine lines for flap disc and flap wheels. And its brand “DORIS”, “XUFU”, “YIHONG” are well-known in the lines.

With nearly 200 employees, dozens of automatic machines, the company has received ISO9001: 2008 certificate.

In 2013, our annual turnover reached to USD5 000 000.

In 2014, the company starts to cooperate with VSM in Germany, as its district distributor. It builds the production line of abrasive belt.

All of these depends on the efforts of the whole team. Based on the principle of high efficient implementation, continuous innovation, sustainable development and customer first, the company will make more efforts to make it a leading abrasives manufacturing industry by virtue of superb service, first-class quality and advanced technology, on which the whole team has full confidence. Just as an old Chinese saying: Nothing is insurmountable, if you are well prepared to scale the highest peak.

Jia County Yihong Abrasive co., Ltd is faithfully willing to be your friend and is waiting for the mutually beneficial and fruitful cooperation between us.cooperation between us.

Fiberglass Backing Plate

Fiberglass backing plate, which is one of the strongest support for series of grinding disc, including flap disc, melt disc, felt disc, non-woven wheel etc.

As an important role in flap disc, its main function is “Back” . It is like the one, who is always back to you. Backing is made by fiberglass cloth, with resin and glue, it is always on the way to be better and better to support the product it need to, we are on the way to be better and better to support you.

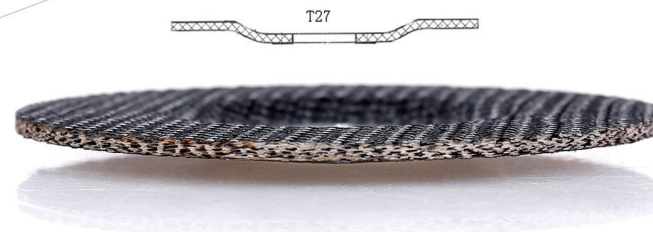

Yihong Abrasives, Always back for you!

Suitable
manuf
Felt di
disc(n
abrasiv
disc et

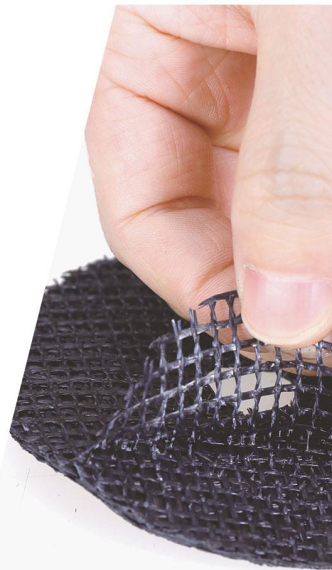

for:
 Flap disc, Non-woven flap disc,
 Clean and strip disc, Combined flap
 -woven and abrasive cloth, different
 cloth), Elastic flap disc, diamond flap

Material: Fiberglass

Size: Diam. 75–230mm, 5–14 layers, T27 or T29,

*Features: with no glue penetration, high strength
 and more flexibility by best quality
 fiberglass fabric, excellent phenolic resin,
 galvanized metal rings, and total quality control:
 detection, inspection and testing.*

**Product
 introduction**

All Products made by Fiberglass Backing Plate

Fiberglass backing plate manufactured by YIHONG ABRASIVES, can be used for manufacturing the following:

Flap disc, Non-woven flap disc, Felt disc, Clean and strip disc, Combined flap disc(non-woven and abrasive cloth, different abrasive cloth), Elastic flap disc, diamond flap disc etc.

Elastic flap disc

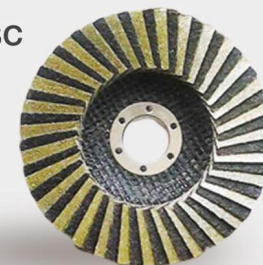

Clean and strip disc

flap disc

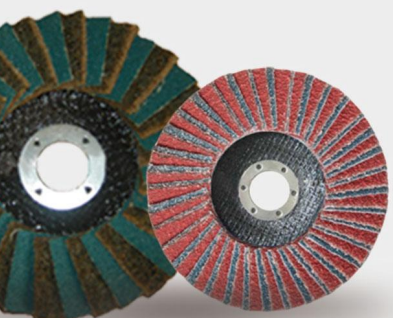

diamond flap disc

Felt disc

Non-woven flap disc

combined flap disc
